THIS YEAR'S
GUEST OF HONOUR IS

Bernard Rosello

★ CRF'S 2018 YOUTH AMBASSADOR ★

Bernard was born with a proximal femoral focal deficiency (PFFD)—a condition that affects how the hip joint and leg develop. Just before entering the first grade, Bernard underwent a complete hip disarticulation, removing his right leg. Only a small portion of people who have this rare amputation walk independently.

But Bernard is determined to show others that disability is not a barrier. During his appointments at the Rehabilitation Centre for Children you'll likely find him running up and down the hallways, practicing his jump shot and perfecting his lay-up.

His basketball skills are pretty impressive, especially for someone who was never expected to walk.

"I want people to know that if you know someone who has a disability, do not doubt them. If they put their minds to it, they can do anything," he says.

The Children's Rehabilitation Foundation has supported Bernard, who has dreams of competing in the Paralympics, with specialized sports equipment and provided funding for part of a prosthetic leg equipped with a cutting edge hydraulic control system.

With your support of A Night of Miracles, we can help make more dreams come true!

Individual
tickets are
\$200 each
